Welcome to The Oak Saga collection, a tribute to the rich heritage of Romanian tradition and craftsmanship.

Our collection features an exquisite range of solid oak furniture, carefully crafted and combined with luxurious materials such as marble, metal and upholstery.

Each piece is designed to reflect the timeless elegance and natural beauty of Romania, with a modern twist that brings it to life in the 21st century. Inspired by the country's storied past and its vibrant culture, our collection showcases the best of Romanian craftsmanship and design, with intricate details and stunning finishes that will leave you in awe. Whether you're looking for a statement piece for your office, a sturdy dining table for your family gatherings, or an accent chair to add a touch of sophistication to your space,

The Oak Saga collection has something for everyone. With its unique blend of tradition and modernity, this collection is a celebration of Romanian heritage. So, step into the world of The Oak Saga and discover the beauty of solid oak furniture like never before.

Quantum

SKU: TOS-QU-01
Product Dimensions: 2800 x 1100 x 750mm
Materials Used: Solid Oak, Power Sockets

AVAILABLE WOOD FINISHES

The Quantum Conference Table is our flagbearer product in this collection.

Equipped with power sockets and designed with a smart and elegant cable management through the leg, this table is imposing in any office room.

Scar

SKU: TOS-SC-01
Product Dimensions: Ø 1200 x 750mm
Materials Used: Solid Oak, Marble

AVAILABLE WOOD FINISHES

AVAILABLE MARBLE FINISHES

Our Scar Table brings elegance and character into your space.

Being made entirely out of natural solid oak and the leg being split in half by the marble, this table manages to bring the best of both worlds: luxurious, but still simplistic.

Wyda

SKU: TOS-WY-01
Product Dimensions: 2400 x 1100 x 750mm
Materials Used: Solid Oak

AVAILABLE WOOD FINISHES

The Wyda Dining Table was named after one of the most famous pirate ships in the world due to its boat-shaped top.

Like the rest of our collection it features the best quality solid oak.

Badmash

SKU: TOS-BA-01
Product Dimensions: 2400 x 850 x 750mm
Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

The Badmash Sofa is a testament to Carel Woodwork's timber proficiency. The structure is made entirely out of solid oak, while the upholstered parts offer an amazing comfort.

Gizmo

SKU: TOS-GI-01
Product Dimensions: Ø 450 x 410mm
Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

Our Gizmo Low Stool holds the same design standard as the rest of the collection with simple elements and natural curving of the products. We applied a touch of a luxury to a brutal concept to get this ottoman.

Siaa

SKU: TOS-SI-01

Product Dimensions: 1500 x 750 x 410mm

Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

Oak

Walnut

Black

Creamy

The Siaa bench serves as a multi-purpose bench that can fit in different types of spaces. Being 750mm wide it can be used to seat people on both sides on the soft upholstered pad. The collection's signature rounded forms are kept here due to the solid oak legs too.

Onix

SKU: TOS-ON-02
Product Dimensions: 2000 x 460 x 450mm
Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

The Onix Bench was born from a reinterpretation of the benches that you find in front of the houses of Transylvanian villages. People would build their benches out of fallen timber found in the nearby forrests and use them to socialize in front of their homes with their friends. The cushions are added for extra comfort.

Mew

SKU: TOS-ME-01
Product Dimensions: 660 x 770 x 720mm
Seat height: 420mm
Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

When building a new piece of furniture, we say the most important are the proportions. Our Mew Lounge Chair offers comfort and a clean design.

Ivy

SKU: TOS-IV-01

Product Dimensions: 580 x 520 x 840mm

Seat height: 480mm

Arms height: 660mm

Materials Used: Solid Oak, Upholstery

AVAILABLE WOOD FINISHES

Designing and building a chair might be the hardest part of every collection if you ask a furniture producer.

The Ivy Chair followed the same minimal line of design that puts the spotlight on the natural materials especially wood.

The elegant shape and light weight of this solid oak chair can be placed in a variety of different spaces.

Yzma

SKU: TOS-YZ-02
Product Dimensions: 1200 x 1200 x 410mm
Materials Used: Solid Oak, Marble

AVAILABLE WOOD FINISHES

AVAILABLE MARBLE FINISHES

This stylish coffee table is brought together by nature: stone and wood. The Spanish Emperador marble is highlighted in this product as it marries the marble with the solid oak in a sublime piece.

Dugtree

3 separate pieces compose our arrangement of Dugtree Coffee Table. Inspired by the legendary Pokemon franchise, the tables can be used together or separately in your lounge area.

SKU: TOS-DU-01
Product Dimensions: Ø 350 x 360mm, Ø 400 x 280mm, Ø 450 x 420mm
Materials Used: Solid Oak, Marble

AVAILABLE WOOD FINISHES

AVAILABLE MARBLE FINISHES

Omega

Our Omega Side Table features 3 of the most valued materials at Carel Woodworks - Oak, Metal & Marble. With a slick and tasteful design, this table radiates a sophisticated, yet simple atmosphere.

SKU: TOS-OM-03
Product Dimensions: 450 x 250 x 480mm
Materials Used: Metal, Marble, Solid Oak

GENERAL TERMS AND CONDITIONS

1. GENERAL

These General Terms & Conditions (hereinafter also as “GTCs”) apply to all the contractual relationships arisen between CAREL WOODWORKS, Str. Careiului no. 45, Vetis 447355 Satu Mare Romania, VAT: RO14077365 registered by in the Commercial Register maintained by the Regional Court of Satu Mare as the Seller (hereinafter the “Seller” only) and the Purchaser.

The contracting parties may change, make deletions from/additions to some of the provisions of these GTCs only through a written agreement between both parties (such as in their purchase contract), provided that the remaining provisions of the GTCs remain in force further on.

As far as foreign trade is concerned the contracting parties agreed to apply the INCOTERMS 2020 interpretation rules to the contractual relationships made with reference to these GTCs, unless otherwise directed by the particular contract.

2. CONTRACTUAL RELATIONSHIP AND ITS ORIGIN

1/ Based on the Seller’s non-binding offer, the Purchaser shall place a written purchase order of the goods, which will be identified in accordance with the Seller’s catalogue. The Seller reserves the right to decide about the confirmation of the purchase order, even when in part only.

The purchase order shall be deemed confirmed in writing, when either a proforma invoice or a Purchase Contract signed by the Seller is sent. If the purchaser does not raise any objections to the delivered order confirmation with the seller within 2 days, the order confirmation is considered approved. Should the Seller confirm only a part of the Purchaser’s order or should he make other changes, objections, additions or limitations to the purchase order (hereinafter as “Modified Order” only), this Modified Order shall be construed as a new contract proposal which has to be confirmed by the Purchaser anew.

The Purchase Contract shall be deemed concluded upon delivery of the confirmed Modified Order to the Seller by the Purchaser. A mere clarification shall not, however, be construed as a change to the purchase order, when based on the Seller's technical specification.

2/ Request of the Purchaser for an additional change in the confirmed purchase order which the Seller approves of after examining the state of production is subjected availability and feasibility of the modification/cancellations requested by changes.

3. DELIVERY PERIODS, FAIRLURE TO TAKE THE GOODS

1/ The delivery period specified in the purchase order confirmation (Purchase Contract, pro-forma invoice – see the Clause II of GTCs) sent by the Seller to the Purchaser shall be binding. The delivery period shall be proportionally prolonged to allow for delays in supply of the Purchaser's material or receipt of the prepayment from the Purchaser.

The delivery periods can be prolonged upon contingencies beyond the Seller's control, such as the unexpected force majeure inter- ventions, strikes, and other obstacles that were not caused or done by the Seller and occurred beyond the Seller's will. This shall also apply upon occurrence of these contingencies on the side of the Seller's suppliers.

Upon those circumstances, the Purchaser shall not be entitled to claim any damages or penalties resulting from the delay in delivery, if the Seller can prove, upon the request of the Purchaser, that the delay was caused by circumstances beyond the Seller's reasonable control and irrespective of the Seller's will. 2/ Unless otherwise agreed in writing, the freight expenses shall be borne by the Purchaser. The risk of damage to the goods shall pass to the Purchaser upon takeover of the goods. Anyother arrangements can be regulated in writing in the purchase contracts, mainly by reference to the delivery condition under INCOTERMS 2020.

3/ In the event of uncollected goods after the withdrawal from the contract, the Seller shall have the right to invoice the Purchaser with the contractual penalty in the amount of the received advance payment, or at the rate of 50 % of the value of the uncollected goods specified in the Purchase Contract if no advance payment was paid.

4/ Where the uncollected goods have been shipped subsequently and the Seller has not yet exercised the right to withdraw in accordance with the previous point the Seller shall have the right to claim from the Purchaser the contractual penalty at the rate of 1% of the value of these goods for every default day in excess of the 21 days, but at least 100 EUR.

5/ The contractual penalties shall be payable on the delivery date of the invoice and can be set off against any received advance payment and/or other consideration received from the Purchaser.

4. CHANGES AND CANCELLATION

Carel acknowledges Purchase Orders as a final and binding order. In case of any Purchase Orders change or cancellation, depending on the stage in which the orders are in production, the customer will either lose his advance, or Carel will have to collect the total amount of the order. Only if the order has not been started in production, and the materials have not been ordered, Carel will be able to cancel the order only with a 10%penalty.

5. LOSS, DAMAGE DELAYS

Carel cannot be held liable for commercial losses, consequential damage or other damages that may arise as a result of any defects or faults in the product. Carel is not liable for failure to ship by the acknowledged shipping date or any other date.
Carel

s not liable for delays or failure in shipment or performance if the delay or failure of shipment or performance is caused by acts of omission of customers, its agents, employees, contractors, governmental offices, force majeure, or Covid-19, delays in transportation or other similar causes that are not within Carel's reasonable control. Carel is excused from further performance of its obligations for the duration of a force majeure cause.

6. STORAGE

If a customer cannot accept delivery of their order when products are ready at Carel's dock, it is the customer responsibility to arrange transportation of product invoiced at that time. Carel can offer storage of product, first 30 days no charge, after 30 days 1.5% of total order will be billed to customers. Customer is responsible for actual storage charges and any other expenses relating to the storage of products or materials. Customers bear all risk of loss or products or materials in storage.

7. PACKAGING AND SHIPPING

Carel's case-good products are shipped in components form. Tops and panels are shrink wrapped with plastic foil, corner protection and cardboard boxes. Pedestals, storage units, overheads and vertical storage units are wrapped with plastic foil with cardboard protection and cardboard boxes. If the customer requests special shipping or delivery methods, the customer is responsible for any extra costs that may result. Carel is excused from further performance of its obligations for the duration of a force majeure cause.

FURNITURE CARE & MAINTENANCE

1. PRODUCT NATURE

The wood is a product of nature, and as such, no two pieces are exactly the same. Wood owes its inherent beauty to variations in color, grain, and texture – therefore, these variations are not considered defects. There may be minor variations from one piece of furniture to the next, even though they are finished at the same time. Also, wood and stone are natural materials with variations of color shade, configuration, streaks and grain structure. Each individual piece of furniture has characteristic markings that will differentiate from photographs or showroom samples.

Due to the natural material used in manufacturing Carel products, variations may occur even in the architectural veneers and hardwoods. Unique characteristics inherent in some wood and stone species are beyond control of Carel and are not considered a defect.

Wood is composed of cellulose (a molecule with an affinity for water) and it is porous; as a result it is vulnerable to humidity. As wood has water as a component of its makeup your furniture will shrink and expand with changes in relative humidity and temperature, these are normal and expected changes throughout the year.

2. GENERAL MAINTENANCE

Taking quality care of your wood furniture will ensure your enjoyment for years to come. We use quality hardwoods in the production of our furniture and purchase our wood through companies that are FSC certified.

When moisture in the air increases (i.e. humidity rises), wood absorbs water and swells a little; when the air dries out (i.e. humidity decreases), wood gives off moisture and shrinks. These responses to changes in humidity weaken glue joints, can cause wood to split or crack, and may damage its finish. These are all characteristics that should be accepted when purchasing solid wood furnishings and will not affect the quality or structural integrity of the piece.

However if the humidity moves out of the ideal range and solid wood tables start to expand or contract, causing splits in the grain pattern and joints of the wood panels as a result of an uncontrolled environment, these are not considered defective. If the environment is not controlled these conditions should be appreciated as an inherent characteristic of solid wood.

As a manufacturer, we do everything possible to prevent the above from happening but we have no control over natural wood products. All solid wood furnishings from Carel are professionally dried to 6-8% moisture content before any production begins.

To lessen the effects of wood movement avoid placing your furniture directly in front of heat sources such as fireplaces or radiators, heat dries wood excessively so electrical components such as computers and transformers must not be placed directly on a solid wood surface otherwise cracking will occur through no fault of Carel and will not be covered under a warranty claim. Avoid exposure to direct sunlight, use a humidifier in the cooler drier seasons and air conditioners in the warmer seasons. A humidifier is always recommended in a location with solid wood products.

Be sure your location has proper humidity levels throughout the year. You can purchase a humidity meter from most hardware stores. Keep in mind that wood does have a life of its own. Change thermostat settings gradually as seasons change. A sudden change in temperature or humidity is the worst thing possible as moisture will be sucked out of or pushed into the material far too quickly causing tension inside it. Excess heat and dryness can even cause cracking and splitting within hours. It is also important to remember that placing your piece in front of a window in direct sunlight can dry out your piece and cause cracking and splits!

Protect surfaces from liquids and excessive heat. The finish is made to withstand most liquids for short periods of time. Liquids left on surfaces overnight will stain and cause substantial changes to both solid wood and veneer that may not be repairable. For the best cleaning results, one should use a damp cotton cloth moved in the direction of the grain. Do not move damp cloth in circles or against the grain – this may cause scratching on the surface. Never use silicone or wax-based products to ‘polish’ the furniture. This will cause a cloudy buildup and take away from the natural sheen and beauty of the wood.

WARRANTY

1. GENERAL TERMS

Carel Woodworks is confident of its quality wood products. We are extremely proud of the workmanship of our product. We realize that purchasing our furniture is an investment in quality that will last for generations to come. That's why we offer a warranty covering defects in workmanship, material, and construction of our furniture for a period of two years starting from date of shipment.

Our products are sealed and lacquered with high quality products. We use a water based eco lacquer as the final process to protect your furniture against normal use. Although we have sourced out a very durable finishing process any finish will be 76 stressed if not cared for properly. Burns, cuts, scratches, dents, watermarks and sun damage will affect the finish quality and therefore not covered by warranty.

Damage occurring from marking or staining of veneer surfaces due to contact with rubber, pen, pencil or similar compounds as well as damage from sharp objects or imprinting from writing instruments is not covered under.

Also cleaning with detergents, abrasives or other improper cleaning agents will breakdown the finish. The preceding actions are not covered by this warranty. Minor variations in color and wood grain will occur between furniture pieces and these are normal.

The products are not engineered nor designed to be used as seats or ladders. Standing on tables may cause tipping and/ or structural problems that may not be field-repairable. Solid wood tables should not be pushed or dragged, this can cause the legs to get stuck because of the weight, therefore weaken the screws and holes causing the legs to come out or break.

Products using customer- supplied materials, fabrics, leather, pulls, hardware or any components manufactured by others are not covered under Carel warranty.

This warranty does not apply to any defects or damages caused during shipment or due to lack of proper care/maintenance or resulting from assembly or installation misuses or accident.

Negligence, neglect, incorrect maintenance, abuse, misuse, or accidents by the customer as well as damage from normal wear and tear such as dents, nicks,

scratches, fading and improper maintenance will void the warranty.

Carel assumes no responsibility for product damages resulting from installation or user modification.

2. CLAIMS & PROCEDURES

Carel strongly recommend that all cardboard shipments to be inspected for visual outside damage to the package. Damages and piece count shortages must be noted on the bill of lading. Freight claims must be filed within 30 days (including cartoned shipments with concealed damages). Contact Customer Service for warranty / freight claim form at email office@Carel.ro and a delightful company representative will get back to you as soon as possible.

If a defect is found by the customer during that period, it is important you promptly notify Carel Woodworks. Explanations and photos are needed in order to establish the cause of the damage. Also, the complaint related to the product must be made based on the product label affixed on the inside of the furniture item which contains information regarding the product manufacturing (photo needed).

We will then replace the defective item only if repair on site cannot be made, or substitute a different item free of charge. In case of replacement, the installation and assembly on site will be charged to the client. Free of charge is considered only the replacement shipment, with the DAP delivery condition active (this applies to European Union), if the client is outside European Union, the shipment costs falls entirely on the client's responsibility. In some situations we will offer a refund. The final decision is at the discretion of Carel Woodworks. Also, if a product replacement is agreed, the client must return to Carel the defective product when the new one is delivered.

Does not include freight costs to and from factory or inspection fees – these costs are the responsibility of the customer.
